Methodological Note for 2019 data

1. Introduction

Kyowa Kirin Pharma s.r.o. is committed to supporting healthcare and the development of patient care across Slovakia. As such, we are pleased to offer support to the organisations and practitioners who are central to making this happen. The support of Healthcare Organisations (HCOs) or Healthcare Practitioners (HCPs) through the provision of funds or services is essential to this. In accordance with AIFP code publishes details about transfers of value to these individuals and organisations annually.

- Logistical costs related to KKI-organised meetings (e.g. room hire)

As the AIFP code only relates to transfers of value to HCPs and HCOs, this disclosure does not include:

- Donations to non-HCOs
- Support provided to Patient Organisations. This is disclosed in a separate report.

3. Date of Transfers of Value

The date of the transfers of value included in this disclosure is based on date of payment (where the transfer of value is a payment). If the transfer of value is a benefit in kind, it is based on the date.

4. Direct and Indirect Transfers of Value

For direct transfers of value, the recipient is considered to be the person or entity holding the bank account receiving the money. Kyowa Kirin Pharma s.r.o. also provides indirect transfers of value.

In the case of payments that are made through Clinical Research Organisations, these are included under Research and Development and reported in the aggregate

Where a third party has been appointed by an HCO to manage an event, and where the HCO benefits from the transfer of value, these transfers of value are disclosed against the HCO.

Where third parties are appointed by KKI to make travel and accommodation arrangements for HCPs, the transfers of value are reported against the HCP who received the benefit.

5. Cross-border activities

KKI makes best efforts to capture and report all transfers of value to HCPs and HCOs with primary practice in a country with EFPIA Disclosure Code or other transparency reporting requirements. The country of disclosure is based on the HCP's principal practice or the HCO's country of registration.

6. Consent

In Slovakia HCOs are reported without the need for consent as they are legal entities. HCP's consent is collected at the time of contracting. If consent is not provided, the transfer of value that they have received is included in the aggregate amount. If no response is received a "no" response is assumed and the data is also reported in the aggregate.

7. Disclosure
